So, you study online at your own pace and when you're ready, you choose to attend one of the pre-scheduled Hands-On Field Training Classes at the ECONTC site in Portland Oregon. Throughout the week, you complete your field training and take your proctored written and field certification exams. We schedule the Hands-On Field Training Courses in Portland several times a year; see our "Classes" page to find a convenient course date for you.

Here's How It Works:

Purchase ECONTC's Online Independent Study Course & Hands-On Training Course Package today and within 24hrs you will receive an email with instructions that will allow you to enroll in Saturn's Online Curriculum for Building Analyst immediately. Once enrolled, you will have access to the entire Saturn Online Curriculum including narrated slide shows, videos, practice quizzes and exams. You can plow through the material in a few weeks or take a few months to complete the course. Once you have achieved a score on the practice final of 80% or better you are ready to come to Portland for the Hands-On Field Training and BPI Certification Exams portion of the course.

Within three working days of registering for the course, you will receive a Saturn Student Box that contains all the course materials you need, including:

Residential Energy - Residential Energy provides the scientific basis upon which all the courses in the curriculum are based. This is the textbook already in use by the majority of building science educators in the country. Recently released in the fifth edition, Residential Energy includes 320 pages in a full-size perfect-bound format, with hundreds of graphics and dozens of detailed appendices.

The Saturn Energy Auditor Field Guide - The Saturn Energy Auditor Field Guide provides procedures for the field work performed by energy auditors. This field guide is used as a textbook in courses for energy auditors and technicians. The field guide has been thoroughly reviewed by the industry's leading experts and support accepted industry standards. The field guide serves not only as an educational tool but as on-the-job reference of best practices.

Saturn Student Handbook - The Saturn Student Workbook includes course outlines, knowledge summaries, math exercises, worksheets, and tool lists. It is keyed to subjects covered in the online CHEC slide shows. Note-taking handouts include a printed version of the CHEC slides. The Saturn Student Handbook is printed in a full-size center-stapled format.

Technical Reference Sheets - The reference sheets offer guidance for performing field procedures. They are printed as sturdy two-sided color laminated sheets that can survive the rigors of the workplace. Topics include Blower Door Testing, Duct Testing, and Testing Gas Furnaces.

You will also receive the Building Performance Institutes Building Analyst Standards, four laminated BPI technical reference sheets, and ECONTC's field exam study guide.

Course Cost: \$1,995
